

Regional management in Central Hesse

Working together to improve Central Hesse

MitteHessen e. V., an association formed in 2003 to represent the general interests of Central Hesse, serves to further co-operation among the region's business, science and political sectors. The association aspires to promote the region's profile by way of specially developed projects aimed at the fields of education, infrastructure and innovation. The region's cities, county districts, chambers, universities and corporations have joined MitteHessen e. V., which is chaired by the district president, in an effort to achieve this goal. The Region of Central Hesse disposes over an excellent network of business-development institutions that are there to serve you whenever you require assistance. The regional management association "MitteHessen" brings together the business-development experts and economists of the region's five county districts, three main urban centres and the Regional Council. Working together in joint projects and work groups, they promote the continued co-operation and networking activities of the entire region. We look forward to hearing from you.
