Work committee "Business Development"

The Region of Central Hesse disposes over an excellent network of business-development institutions that are there to serve you whenever you require assistance. The regional management association "MitteHessen" brings together the business-development experts and economists of the region's five county districts, three main urban centres and the Regional Council. Working together in joint projects and work groups, they promote the continued co-operation and networking activities of the entire region. Have we raised your interest? We are happy to discuss any and all future business opportunities with you in detail. We look forward to hearing from you. Thank you for your consideration.
